In Arkansas, October is Techtober!
Click the logo to check our calendar for a multitude of events happening in the state this month!

The Soybean Science Challenge will present a new \$200 teacher award at the 2017 regional and state science fairs. Teachers of students who win the \$300 regional Soybean Science Challenge and \$1,000 for the state science fair will receive \$200 for teaching, guiding and engaging students in science research. Please click the logo for more information.

The app challenge gives students hands-on experience solving real-world problems with technology. Click the logo for more information.

Another challenge sponsored by the US Congress. The submission deadline is in 3 weeks. Click for more information.

For news during the month, be sure to check our website for news as we post it! Click the logo to go directly to the news area of the website.

Save the Date!

The next STEM Coalition Quarterly Meeting will be Friday, December 2, 2016.

Harding University STEM Center Focus

The goal of the Lewis "Tony" Finley STEM Center for Math and Science Education is to meet the needs of P-12 math and science teachers through professional development, graduate classes, and hands-on training.

The center trains with materials that support mathematics and science education standards and provides network sessions for them to share their experiences. A wide range of math and science materials are available for checkout and classroom use. The Lewis "Tony" Finley STEM Center for Math & Science Education serves teachers by providing access to resources, materials and professional development.
