

Awesome Workshop Opportunities for Teachers!

The Arkansas Ag in the Classroom Program is excited to announce three new workshop opportunities for this summer!

Each year we get limited opportunities to have Dr. Craig Wilson visit our state and lead these workshops. Dr. Wilson has worked and conducted scientific research on multiple continents, and he brings those experiences with him to workshops and your classroom with fun, dynamic and interactive examples. These workshops are conducted in partnership with the USDA/ARS research centers and their scientists that are located in Arkansas. These scientists can be valuable resources for your classroom.

Workshops are limited to the first 25 teachers that register.

If you teach science in grades 4-12, you won't want to miss this!

June 5th at the Dale Bumpers National Rice Research Center in Stuttgart, 9:00 a.m. – 2:30 p.m.

- Instruction, examples and potential classroom projects with Dr. Craig Wilson that will help you implement NGSS using practices, cross-curricular concepts and core ideas
- Get hands-on instruction and exposure to on-going real world research projects by USDA/ARS scientists utilizing technology in agriculture, animal science, plant science and soil science
- 6 hours of CE credit from Texas A&M College of Science
- A digital microscope for your classroom
- A one-day visit during the coming school year from Dr. Craig Wilson (You and your students will love him!)
- \$100 travel stipend for teachers who attend the workshop

June 6th at the Arkansas Children's Nutrition Center in Little Rock, 9:00 a.m. – 2:30 p.m.

- Instruction, examples and potential classroom projects with Dr. Craig Wilson that will help you implement NGSS using practices, cross-curricular concepts and core ideas
- Get hands-on instruction and exposure to on-going real world research projects by USDA/ARS scientists utilizing technology in agriculture, nutrition, health, plant science and soil science
- 6 hours of CE credit from Texas A&M College of Science
- A digital microscope for your classroom
- A one-day visit during the coming school year from Dr. Craig Wilson (You and your students will love him!)
- \$100 travel stipend for teachers who attend the workshop

June 18th in Texarkana at Trinity Baptist Church (Joint Workshop with Texas Farm Bureau)

- Instruction, examples and potential classroom projects with Dr. Craig Wilson that will help you implement NGSS using practices, cross-curricular concepts and core ideas
- Get hands-on instruction and exposure to on-going real world research projects by USDA/ARS scientists utilizing technology in agriculture, animal science, plant science and soil science
- 6 hours of CE credit from Texas A&M College of Science
- A digital microscope for your classroom
- A one-day visit during the coming school year from Dr. Craig Wilson (You and your students will love him!)

For Texarkana workshop only: please email Andy Guffey at andrew.guffey@arfb.com for registration information.
