

# AR AIMS Two-Day Fall Workshop

October 21st and 22nd

Crowne Plaza, Little Rock

Register at <https://tinyurl.com/AIMS-Math-2day>

AP Statistics

AP Calculus (AB and BC\*)

Presenter - Sarah Johnson

Presenter - Mark Sparks

Focus: The AP Classroom and  
Activities to Engage Students

Focus: The AP Classroom and  
Implementing Mark Sparks'  
Curriculum in Your Classroom

Sarah has been teaching AP Statistics for more than 13 years and currently serves as an AP Consultant for the Midwest Region of the College Board. Sarah has also worked as an AP Statistics Table Leader, AP Reader, AP Multiple Choice Item Writer, and lots more! Sarah uses simulation-based activities to ensure her students are good consumers of data and to keep them engaged in class. Her passion is helping teachers love statistics as much as she does. Sarah was recommended by Josh Tabor and teachers around Arkansas. We are very excited she is traveling from Michigan to Arkansas this Fall!!

Mark Sparks teaches at Batesville High School and has had success across the nation with his Calculus, Pre-Calculus, and Algebra 2 curriculum available on Teachers Pay Teachers. Mark will talk about how to implement this curriculum in your Calculus Classroom, and will provide his most recent full calculus curriculum to all attendees.

\*BC Teachers - Summer Vaught (AIMS Math Director) will present on October 22nd and focus on Parametric and Polar Functions as well as Infinite Series. BC Teachers will attend the session with Mark Sparks for the remainder of the workshop.
